

Sun safety

- We ask parents to apply a high factor sun cream to their children before nursery on sunny days.
- Sun cream should be applied to all exposed skin, including arms, legs, shoulders and faces.
- If you require sun cream to be topped up by us during the day, please send in your child's sun cream in a named bottle.
- Alternatively, if requested, we can use the sun cream we keep in nursery.
- On sunny days, please dress your child in light clothing that covers exposed skin and send in a named sun hat with a wide brim.
- Please complete and return the written slip as we require permission to apply all creams.
- Please ensure your child has a named sun hat with them, ideally in a legionnaires style to offer more coverage/sun protection

Please ask to see our additional 'Extreme Weather Policy'
